Parallel 50: Hadronic structure and interactions - Room1 (16:40 - 18:00)

time	[id] title	presenter
16:40	[260] An extension to the Luescher's finite volume method above inelastic thresholds (formalism)	ISHII, Noriyoshi
17:00	[65] Extracting Scattering Parameters using the Isospin Chemical Potential	BUCHOFF, Michael
17:20	[59] The chiral and angular momentum content of the ρ -meson	LIMMER, Markus
17:40	[242] Rho decay widths from the lattice	FRISON, Julien
