# Annual meeting January 2020

## Monday, 3 February 2020

**AIM 3: Predictive models - Galileo Galilei (131) (12:30 - 15:00)**

| time | [id] title | presenter |
|------|------------|-----------|
| 12:30 | [16] Collection of the dataset for Radiomic and Dosiomic analysis in RT | PIFFER, Stefano |
| 12:45 | [17] Preliminary classification results on data from Lung RT | MARRALE, Maurizio |
| 13:00 | [18] Challenges in ML analysis implementation on RT data | UBALDI, Leonardo |
| 13:15 | [19] Update on predictive models for CESM data | TANGARO, Sabina |
| 13:30 | Lunch break | |
| 14:15 | [20] Thalamic parcellation through probabilistic tractography for tcMRgFUS treatments. Preliminary results of fMRI analyses on TcMRgFUS patients | REMONDINI, Daniel COLLURA, Giorgio MARRALE, Maurizio |
| 14:30 | [21] CHIMERA: a network of networks in medicine | REMONDINI, Daniel |
| 14:45 | [22] Predictive models for tumor classification | MENGUCCI, Carlo REMONDINI, Daniel MARRALE, Maurizio |
