

**POSTPONED- First mini-workshop DAFNE-Light 2020 - Halogenated Perovskites: a New Material for Solar Cell Devices and Innovative Detectors**

Contribution ID: 6

Type: **not specified**

**Thermal and chemical stability of undoped and MXenes-doped multi cation perovskites as studied by (SR) photoemission. Part 2**

*Thursday, 19 March 2020 11:45 (15 minutes)*

**Presenter:** Dr LIEDL, Andrea (LNF)
