

# 7th International Conference on Collective Motion in Nuclei under Extreme Conditions (COMEX7)

## Tuesday, 13 June 2023

### Poster presentation - Aula Magna (12:35 - 13:25)

-Conveners: Benedicte Million

time	[id] title	presenter
12:35	[94] Linear response of warm nuclei with thermal and pairing fluctuations.	ABHISHEK, Abhishek TBA
12:40	[288] Seniority isomers and their whereabouts	MAHESHWARI, Bhoomika
12:45	[289] FARCOS detector in the CHIFAR experiment	ZAGAMI, Cristina
12:50	[290] Latest results on NArCoS: a new correlator for neutrons and charged particles with high angular and energy resolution	PAGANO, Emanuele Vincenzo
12:55	[291] Systematic investigation of the Pygmy Dipole Resonance near the magic $N=82$ shell closure	KLUWIG, Florian
13:00	[292] Systematic investigation of E1 strength below $S_n$ in the tin isotopic chain using the $(d,p)\gamma$ reaction	MÜLLENMEISTER, M.
13:05	[293] Status of the $^{140}\text{Ce}(n,n'\gamma)$ experiment at GANIL-SPIRAL2/NFS	MIRIOT-JAUBERT, Périne
13:10	[296] $A=100$ nuclei study within CNS model	KAIM, Samra
