JULY SITUATION (2)

General comments were positive;

President (Cremonesi) and Referees noticed that total amount of requests is not negligible, so we have to prepared to defend it;

Referees asked to meet before next CSN2 to discuss following items:

- INTERNAL BACKGROUND: maximum acceptable values and how to get there;
- LIME PERFORMANCE: response homogeneity, electrostatic stability, efficiency, discrimination, reco 3D...
- NON-LINEARITY: grid, software correction, hardware correction;
- CHINOTTO: performance and background in case we go with a smaller demonstrator;
- MILESTONES

SEPTEMBER SITUATION (1)

A lot of work was done in August to answer referee's questions;

Details will be summarised in today meeting, but the effort and to completeness of the achieved results were really appreciated by referee and reported to CSN2;

- Come referees abbiamo apprezzato molto il lavoro svolto quest'anno;

Referee report to CSN2 - Sept 2020

Words matter, but numbers even more...
