Conclusion

*of the 2\textsuperscript{nd} edition*

of the mm Universe @ NIKA2 conference

Frédéric Mayet
Université Grenoble Alpes
Key figures

✓ 167 registrants (including late ones)
✓ 66 talks
✓ a lot of results
✓ Hundreds of comments, scientific discussions (slack, questions, offline, …)
✓ 10 slack channels (managed by Antonio)
✓ 1 conference picture (out of tens of screen shots and collages)

and due to the pandemic, unfortunately
• 0 real-life events (social event, Roma tour, …)
Despite the unusual remote format,

the 2\textsuperscript{nd} edition of mm Universe conference
was a success
thanks to…
The Local Organizing Committee

Valentina Capalbo
Federico De Luca
Giulia Gianfagna
Aishwarya Paliwal
Antonio Ferragamo - co-chair
Marco De Petris - chair
The chair-persons
(in appearance order)

Juan Macias-Perez, Florian Ruppin, Laurence Perotto, Nabila Aghanim, Paolo de Bernadis, Laura Salvati, Stefano Ettori, Dominique Eckert, Jens Chluba, Pasquale Mazzotta, Gustavo Yepes, Elena Rasia, Weiguang Cui, Antonio Ferragamo, Alessia Ritacco, Nicolas Ponthieu, Jean-François Lestrade, François-Xavier Désert and Marco De Petris, Frédéric Mayet
The zoom managers

Marco De Petris
Antonio Ferragamo
Valentina Capalbo
Federico De Luca
Giulia Gianfagna
Aishwarya Paliwal
Frédéric Mayet
La Sapienza Universita di Roma

for hosting the conference

and for the fundings (proceedings)

Reminder: the conference was free of charge
and all speakers
and all participants
Observing the millimeter Universe with the NIKA2 camera
Sapienza University, Department of Physics - Rome
28 June - 2 July 2021

F. Mayet - mm Universe@NIKA2 - Rome July 2nd, 2021

Please switch on your camera on Wednesday (30/6) at 3:30 PM (CEST) during Coffee Break.
Proceedings

The Conference Proceedings will be published by Web Of Conferences in the European Physical Journal
http://www.epj-conferences.org

✓ 6 pages per talk
✓ Submission deadline: 01/10/2021
✓ All papers will be peer-reviewed

… more details on the conference webpage
It is important that all speakers make the effort to write the proceeding paper
... to make the proceeding book a success as well
mm Universe @ NIKA2

A series of bi-yearly conferences devoted to the science that can be done with the NIKA2 camera

… and with other mm instruments

… and at other (complementary) wavelengths

… and with the help of simulations, theory, new instruments.
mm Universe @ NIKA2
Observing the millimeter Universe with the NIKA2 camera

2019 June 3-7
LPSC Grenoble
FRANCE

This conference is dedicated to the scientific exploitation of the NIKA2 camera installed at the IRAM 30-m telescope.

LOCAL ORGANIZING COMMITTEE
Johanna Peziuk
Andrea Castalino
Florian Kizirian
Juan Francisco Marín Pérez
Frédéric Mayet
Laurence Perotto

INTERNATIONAL SCIENTIFIC COMMITTEE
Caitlin Casey, Univ of Texas
Marco De Petris, Univ Sapienza Rome
Josep Miquel Girart, IEEC
Gustave Lagache, LAM Marseille
Anastassia Maury, CEA Saclay
Frédéric Mayet, LPSC Grenoble - chair
Alessandro Monfardini, IAP Grenoble
Nicolas Ponthieu, IPAG Grenoble
Rashid Sunyaev, Max Planck Garching

MAIN TOPICS
Cosmology with clusters
Galaxy cluster science
Galaxy formation in the early Universe
Nearby galaxies
Galactic star formation
From dust to planets
Instrumentation, other mm-instruments.

The mm Universe (NIKA2) Conference is organized by the Department of Physics at Sapienza University in Rome and held online via Zoom due to the current situation. We hope that the virtual format will allow all interested participants to be able to take part in the second edition of a series of workshops dedicated to the scientific exploitation of the NIKA2 camera installed at the IRAM 30-m telescope (Pico Veleta, Spain) and opened to the scientific community to report on related targets, such as:

- Cosmology with clusters
- Galaxy cluster science (SZ, X, visible)
- Galaxy formation in the early Universe
- Nearby galaxies
- Galactic star formation
- From dust to planets
- Instrumentation, other mm-instruments.

Registration will open on 1st March 2021 until 16th May 2021. The mm Universe 2021 conference is funded by Sapienza University.

Observing the millimeter Universe with the NIKA2 camera
Sapienza University, Department of Physics - Rome
28 June - 2 July 2021

The "mm Universe @NIKA2" Conference is organized by the Department of Physics at Sapienza University in Rome and held online via Zoom due to the current situation. We hope that the virtual format will allow all interested participants to be able to take part "mm Universe @NIKA2" to the second edition in a series of workshops dedicated to the scientific exploitation of the NIKA2 camera installed at the RAM 30-m telescope (Pico Veite, Spain) and opened to the scientific community to report about related targets, such as:

- Cosmology
- Galaxy cluster science (SZ, X, visible)
- Galaxy formation in the early Universe
- Nearby galaxies
- Galactic and interstellar
- From dust to planets
- Interferometry, other non-instrumental methods

Registration will open on 1st March 2021 until 14th May 2021. The mm Universe 2021 conference is funded by Sapienza University.
