

# Towards the data-taking @ CNAO

Giacomo Traini – Giuseppe Battistoni  
FOOT physics meeting 8 Sep 2021

# Latest news

- The works on the air circulation system of the exp. room has been concluded. To allow for beam delivery, some radio-protection measurements are still needed. They are scheduled on 5-7 November
- The time slot for the FOOT data-taking is allocated in the period **8 November - 8 December**
  - **8 -15 Nov -> mounting the detectors**
  - **16 Nov – 8 Dec → beam time ( $^{12}\text{C}$  ion 115-400 MeV/u, total 30-35h during the week nights) + dismounting**
- Access @ CNAO:
  - New safety and radioprotection forms will be circulated soon
  - At present, due to COVID rules, the number of people allowed to share the same room is limited (2-3) → **shifts have to be arranged**
- To be done in the incoming weeks:
  - Fix ASAP the final setup that we are going to use (we soon organize a meeting with detector experts). We can discuss the possibility to organize a one-day “visit” @ CNAO
