

The 4th UniverseNet School - Frontiers of Particle Cosmology

Tuesday, 14 September 2010

6 talks (Chair: Pierre SALATI) (16:30 - 18:00)

time	[id] title	presenter
16:30	[22] Mr. GAGGERO, Daniele (INFN Pisa): Combined interpretation of recently measured electron, positron and antiproton spectra	
16:45	[23] Dr. GUSTAFSSON, Michael (INFN Padova): Constraining dark matter properties from gamma-ray measurements	
17:00	[24] Mr. HRYCZUK, Andrzej (SISSA Trieste): Sommerfeld enhancements in the MSSM	
17:15	[25] Mr. MERTSCH, Philipp (University of Oxford): Systematic effects in the extraction of the 'WMAP haze'	
17:30	[26] Mr. PANCI, Paolo (University of L'Aquila & Paris 7 & CERN): Diffuse gamma Ray Constraints on Annihilating or Decaying DM after Fermi	
17:45	[27] Dr. ZAHARIJAS, Gabrijela (CEA Saclay): Constraints on Dark Matter Annihilation from the Fermi-LAT Diffuse Gamma-Ray Measurement
