

# The 4th UniverseNet School - Frontiers of Particle Cosmology

## Thursday, 16 September 2010

**6 talks (Chair: Minos AXENIDES) (16:30 - 18:00)**

time	[id] title	presenter
16:30	[3] Dr. HAMANN, Jan (Aarhus University): Supernova anisotropies	
16:45	[31] Mr. NADATHUR, Seshadri (University of Oxford): Confronting inhomogeneous cosmologies with CMB data	
17:00	[60] Dr. NESSERIS, Savvas (NBIA Copenhagen): A model-independent null test on the cosmological constant	
17:15	[38] Dr. MALEC, Beata (Copernicus Center, Cracow): Cosmic Equation of state from Strong Gravitational Lensing Systems	
17:30	[40] Dr. SHAFIELOO, Arman (University of Oxford): Problems of Reconstructing Dark Energy	
17:45	[62] Mr. MARSH, David (University of Oxford): Cosmology and the String Axiverse
