

The 4th UniverseNet School - Frontiers of Particle Cosmology

Monday, 13 September 2010

6 talks (Chair: Bohdan GRZADKOWSKI) (16:30 - 18:00)

time	[id] title	presenter
16:30	[9] Mr. ALBORNOZ, Daniel (LAPTH Annecy): Lightest neutralinos in the (N)MSSM	
16:45	[10] Dr. FRANSEN, Mads Toudal (University of Oxford): Asymmetric dark matter	
17:00	[11] Mr. MCCABE, Christopher (University of Oxford): Neutrino-Flavoured Sneutrino Dark Matter	
17:15	[12] Mr. PATO, Miguel (Padova University): Systematic uncertainties in the determination of the local dark matter density	
17:30	[13] Dr. RACIOPPI, Antonio (NICPB Tallin): Matter parity, scalar dark matter and LHC	
17:45	[14] Mr. URBANO, Alfredo (Salento University): Electroweak corrections to Dark Matter indirect detection
