

WP11: status and short-term plans

- WP11 coordinators: C. de la Taille, A. Rivetti
- Two scientific tasks:
 - Exploratory studies in 28 nm
 - ASICs in 65 nm/130 nm for other WPs
- Total WP budget: 810 k (648 core + 162 OH)
- INFN budget: 292.5 (234 core + 58.5 OH)
- Person-month in table so far: 87.3 PM and 447.8 k euros
- Key contact persons: V. Re (PV, 28 nm), Paolo Giacomelli (INFN-BO), A. Rivetti (INFN-TO)
- Other local contacts being identified

WP11: status and short-term plans

- Budget is very tight considered the task goals and typical costs
- Effectiveness depends on the approach
- Synergies with other projects needed
- AIDAInnova: mostly people support
- Synergies: [LHC](#), [RD_FCC](#), [BESIII](#), [CSNV](#) ([Falafel](#), [Timespot](#))
- It can be very important if it acts as an “hardware accelerator”
- WP Italian community meeting: early March
- WP european community meeting: late March
