

# GWADW2021 Gravitational Wave Advanced Detector Workshop

## Monday, 17 May 2021

### Recorded talks: Space missions: Space Missions Talks Index (08:00 - 09:40)

-Conveners: Kentaro Somiya

time	[id] title	presenter
08:00	[159] Progress towards the LISA orbiting observatory for gravitational waves	WEBER, William
08:20	[114] Space GW Antennae: DECIGO/B-DECIGO	ANDO, Masaki
08:40	[115] Current progress in developing key technologies for TianQin project	YEH, Hsien-Chi
09:00	[1] Lunar Gravitational-Wave Antenna	HARMS, Jan
09:20	[160] Time-delay interferometry for LISA	HARTWIG, Olaf
09:30	[40] Enhanced noise suppression for LISA by combining cavity and arm locking control systems	VALLIYAKALAYIL, Jobin
