

XXIV SIGRAV Conference on General Relativity and Gravitation

Thursday, 9 September 2021

Cosmology (09:00 - 12:30)

-Conveners: Gabriele Gionti, S.J.

time	[id] title	presenter
09:00	[34] Primordial gravitational waves from CMB - observational perspectives	Prof. PIACENTINI, Francesco
09:30	[35] Neutrino Cosmology: current status and future prospects	Prof. GERBINO, Martina
10:00	[36] Models of galaxy formation and evolution constrained by gravitational-wave events	GRAZIANI, Luca
10:30	Coffee break	
11:00	[55] Cosmology with LIGO/Virgo dark sirens and galaxy catalogs	IACOVELLI, Francesco
11:30	[65] Primordial black hole formation	MUSCO, Ilia
12:00	[49] FLRW quantum cosmology from a tomographic point of view	STORNAIOLO, Cosimo
