

XXIV SIGRAV Conference on General Relativity and Gravitation

Thursday, September 9, 2021

The future of Gravitational waves astronomy (3:00 PM - 4:45 PM)

-Conveners: Massimo Bassan

time	[id] title	presenter
3:00 PM	[68] Experimental challenges for space-based gravitational wave detectors: overview of LISA	CASTELLI, Eleonora
3:30 PM	[69] Liquid Activated Gravity Experiment - an update	BASSAN, Massimo
3:45 PM	[58] Einstein Telescope and the future of ground-based GW detection	MAJORANA, Ettore
4:15 PM	[54] The Einstein Telescope and its vacuum system	GRADO, Aniello
