Dear Colleagues,

They are expected to include a title, short abstract and a pdf file with the description of the experimental setup, beam (energy, intensity), target(s), and the justified request of beam time, which will allow us to investigate possible technical issues. Under this [link](#) you can find a list of available beams from the Tandem-ALPI-PIAVE complex.

We warmly recommend the Lol's spokespersons to contact as soon as possible the experts of the complementary equipments they intend to use. These contact persons are:
