Studies of CP violation and mixing in D meson decays from BABAR

Friday, 10 December 2010 17:00 (25 minutes)

We present the results of studies of D mixing and searches for CP violation in charm decays from the BABAR experiment.

Primary author: Dr ROBERTSON, Steven (IPP/McGill University)

Presenter: CASAROSA, Giulia (PI)

Session Classification: T, C, P, CP symmetries, accidental symmetries (B, L cons.) (10)

Track Classification: T, C, P, CP symmetries, Accidental symmetries (B, L conservation)
