

Newtonian-noise modeling and seismic analyses at the ET Sardinia candidate site

Report of Contributions

Contribution ID: 1

Type: **not specified**

Approaches to seismic NN modeling

Monday, 12 July 2021 09:00 (1 hour)

Presenter: HARMS, Jan (GSGC)

Session Classification: Newtonian noise

Contribution ID: 2

Type: **not specified**

RUMOR - An ET environmental noise simulation tool

Monday, 12 July 2021 10:00 (1 hour)

Presenter: HARMS, Jan (GSGC)

Session Classification: Newtonian noise

Contribution ID: 3

Type: **not specified**

Modelling the atmospheric Newtonian noise (part 1)

Tuesday, 13 July 2021 09:00 (30 minutes)

Presenter: SANNA, Andrea (Universita' degli Studi di Cagliari)

Session Classification: Newtonian noise

Contribution ID: 4

Type: **not specified**

Modelling the atmospheric Newtonian noise (part 2)

Tuesday, 13 July 2021 09:30 (30 minutes)

Presenter: OI, Mauro (Istituto Nazionale di Fisica Nucleare)

Session Classification: Newtonian noise

Contribution ID: 5

Type: **not specified**

Discussion: What is the "right" way to model NN for ET?

Monday, 12 July 2021 11:00 (1 hour)

Session Classification: Newtonian noise

Contribution ID: 6

Type: **not specified**

Discussion: Status of atmospheric NN modeling and next steps

Tuesday, 13 July 2021 10:00 (1 hour)

Session Classification: Newtonian noise

Contribution ID: 7

Type: **not specified**

Discussion: What measurements can help to improve atmospheric NN estimates?

Tuesday, 13 July 2021 11:00 (1 hour)

Session Classification: Newtonian noise
