Thursday, September 16, 2021

Oral Presentations: Session 5 (4:00 PM - 6:45 PM)

time	[id] title	presenter
4:00 PM	[78] Heavy-quark baryons	NEUBERT, Sebastian
4:30 PM	[79] Experimental aspects of Hadron Spectroscopy and Phenomenology (LHCb)	MITCHELL, Sara Elizabeth
4:50 PM	[80] Recent results on hadronic resonance production with the ALICE experiment	ROSANO, Antonina
5:10 PM	[81] Continuum QCD-studies of Baryon Spectrum and Structure	SEGOVIA, Jorge
5:30 PM	[82] Lattice QCD input for baryon-baryon scattering and interactions in effective field theory	ILLA, Marc
5:40 PM	[126] Search for dibaryon with CLAS12 collaboration	NICOL, Matthew
5:50 PM	[62] Vector Meson - Proton Scattering Lengths from Omega to Upsilon	STRAKOVSKY, Igor
6:05 PM	[84] Direct evaluation of the static force from lattice QCD	VILJAMI, Leino
