

NuSym 2021 - International Symposium on Nuclear Symmetry Energy Online Event

giovedì 23 settembre 2021

Symmetry energy constraints from astrophysics and many-body calculations - Chair: G.F. Burgio (14:00 - 16:00)

time	[id] title	presenter
14:00	[4] Equation of state constraints from chiral effective field theory and astrophysics	DRISCHLER (FRIB, MICHIGAN STATE UNIVERSITY, USA), C.
14:40	[5] Neutron Star Measurements with NICER	MILLER (UNIVERSITY OF MARYLAND, USA), C.
15:05	[6] Modelling inhomogeneous matter at finite temperature in compact stars	FANTINA (GANIL, FRANCE), A.
15:30	Open discussion
