

ET - Site Studies and Characterization

Wednesday, 10 November 2021

Poster Session @ Sos Enattos Mine: Poster Session @ Sos Enattos Mine (18:55 - 20:00)

time	[id] title	presenter
19:00	[23] Weighing quantum vacuum with Archimedes experiment	ALLOCCA, Annalisa
19:00	[3] Wind noise at Sos Enattos	ENSING, Josiah
19:00	[4] Characterizing the hydro-structural setting of the Einstein Telescope site of Sardinia (Italy): insights from Electrical Resistivity Tomography	LONGO, Vittorio
19:00	[17] The Archimedes' prototype at SAR-GRAV laboratory	PESENTI, Luca ROZZA, Davide
19:00	[21] Underground magnetic noise at the SoS Enattos site	D'ONOFRIO, Luca
19:00	[22] Thermal modulation of YBCO samples through radiation heat transfer for the Archimedes experiment	VALENTINA MANGANO ON BEHALF OF THE ARCHIMEDES COLLABORATION
19:00	[24] A nested inverted pendulum for ET suspensions: preliminary studies	TROZZO, Lucia
