

9th GOSPEL Workshop. Gas sensors based on semiconducting metal oxides:
novel materials & mechanism analyses & application fields

Contribution ID: 135

Type: **Oral presentation**

The MOX Sensor Modification for Real Condition of Work Based on Experience Using One in Gas Leakage Detector

Monday, 5 August 2024 15:55 (15 minutes)

Presenter: SAMOTAEV, Nikolay (National Research Nuclear University MEPhI (Moscow Engineering Physics Institute))

Session Classification: Day I, Session I
