

9th GOSPEL Workshop. Gas sensors based on semiconducting metal oxides:
novel materials & mechanism analyses & application fields

Contribution ID: 138

Type: Oral presentation

**Flexible, Wearable, room-temperature NO₂ gas
sensor based on MoS₂/ZnS**

Monday, 5 August 2024 16:40 (15 minutes)

Presenter: XU, Yiyang (XiDian University, China)

Session Classification: Day I, Session I
