

SM&FT 2022 - The XIX Workshop on Statistical Mechanics and nonperturbative Field Theory

Monday, 19 December 2022

Session 2 - Dipartimento di Fisica - Università di Bari "Aldo Moro" - aula A ("Giuseppe Nardulli") - 1st floor (13:00 - 15:00)

-Conveners: Michele Caselle

time	[id] title	presenter
13:00	[70] Laplacian Renormalization Group for heterogeneous networks: information core and entropic transitions	Prof. GABRIELLI, Andrea
13:30	[93] Trapping active particles up to the limiting case: bacteria enclosed in a biofilm	Prof. VALERIANI, Chantal
14:00	[64] A condensation transition at equilibrium and out-of-equilibrium	POLITI, Paolo
14:30	[94] Quantum Simulations of Abelian Gauge Theories	ERCOLESSI, Elisa
