

SM&FT 2022 - The XIX Workshop on Statistical Mechanics and nonperturbative Field Theory

Monday, 19 December 2022

Session 4 B - Dipartimento di Fisica - Università di Bari "Aldo Moro" - aula B - 1st floor (17:35 - 19:35)

-Conveners: Livio Nicola Carenza

time	[id] title	presenter
17:35	[129] OPTIMIZING [FEFE]-HYDROGENASE	BOTTICELLI, Simone
17:55	[115] Emulsions in homogeneous and isotropic turbulence	CRIALESI ESPOSITO, Marco
18:15	[117] Slow round-trip variations across quantum and classical critical points	TARANTELLI, Francesco
18:35	[126] A multicolour polymer model for the prediction of 3D structure and transcription in human chromatin	Dr NEGRO, Giuseppe
18:55	[120] Entropy of quantum states	KONDERAK, Arturo
19:15	[84] A dynamic-Immersed Boundary approach for blood-borne cells transport	COCLITE, Alessandro
