

SM&FT 2022 - The XIX Workshop on Statistical Mechanics and nonperturbative Field Theory

Tuesday, 20 December 2022

Session 7 B - Dipartimento di Fisica - Università di Bari "Aldo Moro" - aula B - 1st floor (15:00 - 17:05)

-Conveners: Sebastiano Stramaglia

| time | [id] title | presenter |
|-------|---|---------------------------|
| 15:00 | [111] A novel methodology for epidemic risk assessment of COVID-19 outbreak | RAPISARDA, Andrea |
| 15:25 | [71] Data-driven emergence of convolutional structure in neural networks | INGROSSO, Alessandro |
| 15:45 | [76] Territorial bias in university rankings: a complex network approach | Dr BELLANTUONO, Loredana |
| 16:05 | [81] Defect-Mediated Morphogenesis | CARENZA, Livio Nicola |
| 16:25 | [88] Work fluctuations in the harmonic Active Ornstein–Uhlenbeck particle model | Mr SEMERARO, Massimiliano |
| 16:45 | [92] Long-range quenched disorder in the bidimensional Potts model. | CHIPPARI, Francesco |
