HL-LHC status and operational scenarios

Friday, 8 July 2022 09:20 (20 minutes)

This contribution presents the status of the HL-LHC project, the draft schedule and the associated operational scenarios. The contribution will focus on expected beam parameters, machine optics and cycles, and performance estimates.

In-person participation

Yes

Primary authors: DE MARIA, Riccardo (CERN); TOMAS GARCIA, Rogelio (CERN)

Presenter: DE MARIA, Riccardo (CERN)

Session Classification: Accelerators: Physics, Performance, and R&D for future facilities

Track Classification: Accelerators: Physics, Performance and R&D for future facilities
