Diversity and Inclusion in the CMS collaboration

Friday, July 8, 2022 5:00 PM (25 minutes)

The CMS collaboration, one of the largest collaborations in high-energy physics, formed a Diversity Office (DO) under a mandate from its collaboration board in 2017. We present here the efforts of the CMS DO in fulfilling its mandate to improve diversity and inclusion (D&I) within the CMS Collaboration and foster an environment where all CMS members can thrive. These efforts include implementing a code of conduct, raising awareness about D&I matters within the collaboration, and facilitating outreach and communication outside of the collaboration about D&I.

In-person participation

No

Authors: MEYER, Arnd; ORIMOTO, Toyoko (Northeastern University)

Presenter: ORIMOTO, Toyoko (Northeastern University)
