Crowdfunding your outreach

Saturday, 9 July 2022 17:00 (15 minutes)

In recent years, crowdfunding platforms have gained popularity as a way to raise funds for various endeavors. This talk discusses the use of crowdfunding as a non-traditional way to finance physics outreach projects. Such tools can provide much needed flexibility to projects and serve as a platform to spread the word about your project. The talk is based on first-hand experience using such tools and includes a discussion of important advise and common pitfalls.

In-person participation

Yes
