## Direct CPV in charm hadrons at LHCb

*Thursday, July 7, 2022 3:04 PM (17 minutes)*

LHCb has collected the world's largest sample of charmed hadrons. This sample is used to measure direct  $CP$  violation in  $D$  mesons and charmed baryons. New measurements from several decay modes are presented, as well as prospects for future sensitivities.

### In-person participation

Yes
