## Measurements of charm lifetimes at Belle II

*Thursday, 7 July 2022 11:49 (17 minutes)*

Outstanding vertexing performance and low-background environment are key enablers of a systematic Belle II program targeted at measurements of charm hadron lifetimes. Recent results from measurements of  $D^0$  meson,  $D^+$  meson and  $\Lambda_c$  baryon lifetimes are presented. The results are the most precise to date.

### In-person participation

No
