Higgs boson differential and STXS measurements - fermion channels

Thursday, 7 July 2022 09:30 (15 minutes)

This talk will cover measurements of Higgs boson differential cross section measurements with fermionic decay channels and in ttH production, including fiducial differential cross-sections and STXS results.

In-person participation

Yes

Primary author: BROMMER, Sebastian (Karlsruhe Institute of Technology)

Co-author: MEYER, Arnd

Presenter: BROMMER, Sebastian (Karlsruhe Institute of Technology)

Session Classification: Higgs Physics

Track Classification: Higgs Physics
