Measurements of the CP structure of Higgs-boson couplings with the ATLAS detector

Thursday, 7 July 2022 11:30 (15 minutes)

Studies of the CP properties of the Higgs boson in various production modes and decay channels are presented. Limits on the mixing of CP-even and CP-odd Higgs states are set by exploiting the properties of diverse final states.

In-person participation

Yes

Primary author: JINNOUCHI, Osamu (Tokyo Institute of Technology)

Presenter: GOBLIRSCH-KOLB, Maximilian (Brandeis University (US))

Session Classification: Higgs Physics

Track Classification: Higgs Physics
