UNIVERSITÀ DI TORINO
COMUNE DI BOLOGNA

Covid-19 related considerations

- ✦ Unfortunately we are experiencing a large increase of the infections in all of Europe in the last weeks. In the past days we got several requests from people to switch to online participation because of that.
- ✦ We had few cases during the parallel sessions, very probably not related to infections in the conference site.
- ✦ Likely more cases will show up during the plenary sessions, let's do our best to limit the spread of the infections.
- ✦ We strongly recommend to use an FFP2 face mask inside the conference venue.

We strongly recommend to use a FFP2 face mask inside the conference venue
