### Theoretical Condensed Matter (15:25 - 16:00)

time	[id] title	presenter
15:25	[13] Ultracold atoms for quantum devices and quantum simulations	Dr TROMBETTONI, Andrea
15:30	[14] Quantum signatures in FEL light	Prof. BENATTI, Fabio
15:35	[15] Dalle hamiltoniane ai diagrammi di fase	Prof. PASTORE, Giorgio
15:40	[16] Unconventional phases of matter from strong electron-electron interaction	Prof. BECCA, Federico
15:45	[17] Teoria e simulazione di sistemi vetrosi	Prof. COSLOVICH, Daniele
15:50	[18] Electronic structure and topology of novel materials	Dr MARRAZZO, Antimo
15:55	[19] Excitonic condensation for electrons with pseudospin degrees of freedom	Prof. SENATORE, Gaetano
