

From Planck to the future of CMB

Monday, 23 May 2022

Detectors and Beams - Aula Magna, Palazzo Mosti (16:40 - 18:30)

-Conveners: Marco Bersanelli

time	[id] title	presenter
16:40	[112] Invited talk by Hannes Hubmayr (NIST Boulder) on "The shape of CMB focal planes to come"	
17:20	[113] Guillermo Pascual Cisneros (IFCA Santander) "Optimization of a microwave polarimeter for astronomy with optical correlation and detection"	
17:40	[114] Nadia Dachlythra (Oskar Klein Stockholm) "Optical calibration simulations for the Simons Observatory"	
18:00	[115] Discussion (Jon Gudmundsson, Hannes Hubmayr)
