

From Planck to the future of CMB

Thursday, 26 May 2022

Experimental results - Aula Magna, Palazzo Mosti (17:00 - 18:20)

-Conveners: R. Belen Barreiro

time	[id] title	presenter
17:00	[165] Angela Taylor (Oxford University) "The C-Band All-Sky Survey: Northern sky-survey results"	
17:20	[166] Kirit Karkare (Chicago University) "The BICEP/Keck program: latest results and progress update on the upcoming BICEP Array receiver deployments"	
17:40	[155] Jose Alberto Rubino-Martin (IAC Tenerife) "The QUIJOTE MFI wide survey: A northern sky survey in intensity and polarization at 10–20GHz"	
18:00	[167] Elle Shaw (UIUC) "Limits on Cosmological B-mode Polarization in the CMB from Spider"
