CYGNO MEETING - 2/12/21

# LNGS and DAQ

Since last week we officially have an office at Gran Sasso Laboratories, shared with other groups;

We installed there a “server” where il DAQ system for LIME will be deployed;

So far, Emanuele and Stefano already succeeded installing and running the CMOS-camera acquisition;

Next week, we'll install NIM and VME modules to test external trigger and PMT digitization;

# LNGS and DAQ

**CYGNO collaboration meeting 2021**

**Gran Sasso Science Institute, L'Aquila, Italy**

CYGNO  
Collaboration  
Meeting 2021

Collaboration Meeting is  
approaching:

- different sessions will be organised to discuss the different topics;

- with the help of Working Group coordinators, we are setting up the schedules and circulating proposals for possible talks and speakers
