# Report from PubComm

## First look at 2021 Cygno Conference Activity

From our Conference database: https://airtable.com/shr2gZmIDJ41C7tCR

In this year we have 29 records:

- 4 Posters

- 17 Talks

- 2 MPGD Cancelled

- 2 Empty (means conference name is present and nothing else)

- 4 Incomplete (not updated information)

**This is (in my opinion) a nice demonstration of an active Collaboration.**

More information and details in GSSI Collaboration Meeting.

# Report from PubComm

## Look at 2017-2020 Activity

Probably not everything is reported in our Database

We have 18 records:

- 5 Posters
- 13 Talks

## Look at 2022 Activity

From our Conference database

We already have 4 records:

- 1 Poster Submitted
- 3 Talks  (1 Accepted , 2 Submitted)

## First look Cygno Papers Activity

From our Publication database:
https://airtable.com/shrzOTHNqWQ6tARSi/tbl3ESqx7hsxsv9EQ/viwxnTfCi1tZR5xRa?blocks=hide

In 2020 we start writing six papers:

- 4 published in 2020

- 1 published in 2021

- 1 almost ready to be sent to ArXiv (the big one on Cygno Experiment)

In 2021 we did not start writing any paper

We had discussion on arguments that we would like to put on papers but we fail (…again this is my opinion) to go over the starting inertia !!!
