

**12<sup>th</sup> Cosmic Ray International Seminar**  
**“The endless multiple voices fugue of the Universe”**  
**Partenope Convention Center**  
**Via Partenope, 36, Napoli (Italy)**  
**September 12 - 16, 2022**

## **SECOND ANNOUNCEMENT**

---

We are pleased to announce that the registration to the 12<sup>th</sup> Cosmic Ray International Seminar (CRIS 2022) is now open. CRIS 2022 will be held in Napoli (Italy), 12<sup>th</sup> - 16<sup>th</sup> September 2022.

The meeting will focus on fundamental topics in astroparticle physics with specific emphasis on the new-born multi-messenger astronomy studies.

CRIS 2022, following the experience of previous editions, aims to present overviews of existing data and reports from the present and future experiments. Talks will cover both theoretical/phenomenological and experimental/observational aspects, in order to give an exhaustive overview of this complex field. The discussion about the present status and future plans requires to involve theorists and experimentalists working on various messengers. Thus, the progress in astroparticle physics achieved through space and ground-based detectors is expected to play a major role in the scientific program of CRIS 2022.

The program will include invited lectures, contributed talks and posters, as well.

As in the past, the CRIS 2022 Conference is addressed to scientists in the field as well as to PhD and graduate students.

The participation of young researchers is warmly welcome. The best contribution presented by a young participant (graduate and PhD student or under 30 years-old post-doc) will be awarded.

CRIS 2022 is jointly organized by the Napoli and Catania Divisions of the National Institute of Nuclear Physics (INFN), by the Department of Physics “E. Pancini” of the Napoli University “Federico II”, by the Department of Physics and Astronomy “E. Majorana” of the Catania University, and by the Department of Physics and Chemistry “E. Segrè” of the Palermo University.

The conference will take place at the Partenope Convention Center which is located on the Napoli seafront in a central, panoramic area and close to the best hotels in the city. Regarding the accommodation, all participants are asked to arrange their own reservation.

For details about the Conference, including registration, travel and accommodation info, you are kindly invited to visit the Conference Web site: [cris2022.na.infn.it](http://cris2022.na.infn.it)

**Important dates and info:**

- Conference dates: September 12 - 16, 2022
- Abstract submission deadline: June 15, 2022
- Notification of acceptance: July 1, 2022
- Proceeding submission deadline: September 10, 2022
- Early-registration fee: 250 € (until July 31, 2022)
- Late-registration fee: 300 € (after July 31, 2022)

**International Advisory Committee:**

Roberto Battiston (University of Trento)  
Marica Branchesi (Gran Sasso Science Institute)  
Antonella Castellina (INAF Torino)  
Francesco Giordano (University of Bari)  
Fausto Guarino (University of Napoli “Federico II”)  
Francis Halzen (University of Wisconsin - Madison)  
Antonio Insolia (University of Catania)  
Teresa Montaruli (University of Geneva)  
Miguel Mostafá (Penn State University)  
Angela Olinto (University of Chicago)  
Shigeru Yoshida (Chiba University)  
Enrique Zas (University of Santiago de Compostela)

**The CRIS 2022 Organizing Committee:**

Carla Aramo  
Mario Buscemi  
Rossella Caruso  
Roberta Colalillo  
Giovanni Marsella  
Valentina Scotti  
Cristina Tuvè  
Laura Valore

**Conference Secretary:**

Salvatore Verdoliva  
Dipartimento di Fisica “E. Pancini”  
Via Cintia – Complesso Universitario di Monte Sant’Angelo 80126 Napoli (Italy)

**Conference e-mail address:** [cris2022@na.infn.it](mailto:cris2022@na.infn.it)

**Conference Web site:** [cris2022.na.infn.it](http://cris2022.na.infn.it)
