

Vulcano Workshop 2022 - Frontier Objects in Astrophysics and Particle Physics

Contribution ID: 41

Type: **Talk**

UHE cosmic ray observations

Wednesday, 28 September 2022 11:25 (25 minutes)

In this contribution I will present recent observational results on cosmic rays at ultrahigh energies (UHE-CRs) from the Telescope Array and the Pierre Auger Observatory. These results include the spectrum and composition of UHECRs, anisotropies of their arrival directions and hadronic interactions in air showers.
