SPONSOR JUNIPER: Apstra AoS: Data Center Automation con Intent Based Networking

Wednesday, 25 May 2022 09:20 (30 minutes)

“Intent-based networking is the true automation of networking.”

With intent-based networking, users tell the network what they want, and the network essentially figures out how to achieve that goal.

Presenters: INDINO, Gabriele (SE Italy - Juniper Networks & Manfred Felsberg –SD EMEA - Juniper Network –APSTRA); FELSBERG, Manfred (JUNIPER)

Session Classification: Tecnologie ICT Hardware e Software
