

Structure of the Document

Length: About 30-35 pages

- Executive Summary (general to all groups) ~ 2-3 pages
- B-Physics ~ 15 pages
- Taus ~5 pages
- Charm ~5 pages
- Spectroscopy ~4-5 pages
- Summary ~2-3 pages.
- Appendix (Tools) ~2-3 pages

Format: 2 column tex, babarsym.tex for symbols (ex: Spectroscopy, Antonello will provide the template?)

References: Per section

Author list: General and at the beginning, contributors decided by conveners ?.

CVS repository: @ SLAC (simpler solution by the time being): at least 1 convener per group is a BaBar member (they should centralize it).

Dead-line: **10th February 2008**

Note: For comparison with Super-KEKB use 10ab^{-1} in (more?) than 5 years.
