Session: LoI 4

Session | **Location:** INFN-LNL, Viale dell'Università, 2, 35020 Legnaro PD | **Convener:** Andrea Gottardo

3:00 – 3:25 PM

Towards the 132Sn nucleus via lifetime measurements

Speaker
Dr Marco Siciliano

3:25 – 3:35 PM

Emergence of collectivity in neutron-rich Sb isotopes

Speaker
Dr Simone Bottoni

3:35 – 4:00 PM

Anomalously-low B4/2 values in neutron-rich Cd isotopes: lifetime measurement of the first 2+ and 4+ states in 120,122,124,126Cd

Speaker
Guangxin Zhang

4:00 – 4:25 PM

Lifetime measurements in A ~ 90 nuclei between the N=Z line and the N=50 shell closure: Limits of seniority symmetry, isoscalar correlations and emergence of collectivity

Speaker
Bo Cederwall

4:25 PM
