

Progress after the computing mini-Workshop

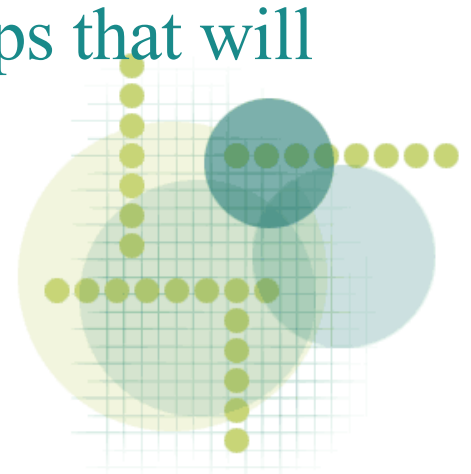

M. Morandin - INFN Padova

SLAC - 12/19/2007

Structuring the effort

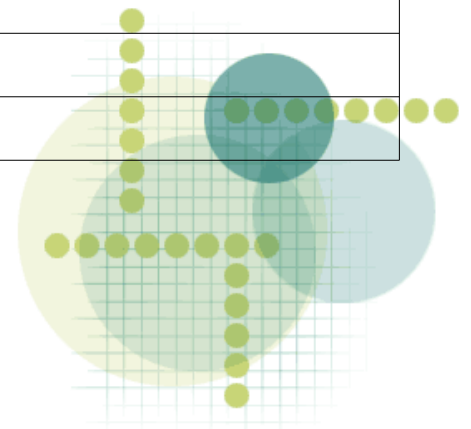

- ~~We need to define~~ contact people in each sub-detector for implementing the foreseen simulation models
- ~~We need to man~~ have started to fill some key software positions; e.g.:
 - **framework architect(s)**
 - **fast simulation coordinator --> (M. Rama)**
 - **detailed simulation coordinator**
- ~~We need to identify~~ have identified two groups that will coordinate some basic computing services
 - **software repository and releases --> (Padova)**
 - **collaborative tools --> (Ferrara)**
 - **hardware infrastructure**

Contact people (fast simulation)

- let's try to fill complete the table:

	Fast MC		
	Institutions	Peoples	Comments
Det.Mach. I/F	Pisa,...	G. Marchiori	
Tracker	Pisa, ...	N. Neri	
Drift chamber	LNF, ...	<u>M. Rama</u>	
PID	SLAC, Novosibirsk, ...		
EMC	Perugia, ...	C. Cecchi	
IFR	Ferrara, Padova, ...	M. Rotondo	
Magnet, structure, etc.	??		

Contact people (detailed simulation)

- let's try to fill the table (by Jan. 7 ?)

	Detailed MC		
	Institutions	Peoples	Comments
Det.Mach. I/F			
Tracker			
Drift chamber			
PID			
EMC			
IFR			
Magnet, structure, etc.
