SOSC is a multi-disciplinary school targeted to PhD students and young researchers from all scientific domains and with interest in Data Science. Theoretical and practical training will be provided to exploit data and resources, developing focussed computational workflows. It’s organized as a series of lectures and hands-on sessions.

Featured speakers will discuss:

**Fundamentals**
- Managing Software and Data
- Tools for Data Handling and Processing

**Machine Learning**
- Introduction to Machine and Deep Learning

**Data Science**
- Workflow Management
- Cloud Solutions for Advanced Big Data Workflows

Organising Committee
- Daniele Bonacorsi
- Daniele Spiga
- Davide Salomoni
- Livio Fanò
- Lucio Anderlini
- Mirko Mariotti
