# The SOSC22 is now ending

- We completed the fourth edition of the SOSC 2022
  - After two years of break due to pandemic
- Our vision: a value of such a school is to make it in presence only
  - This is why we decided no to have virtual editions

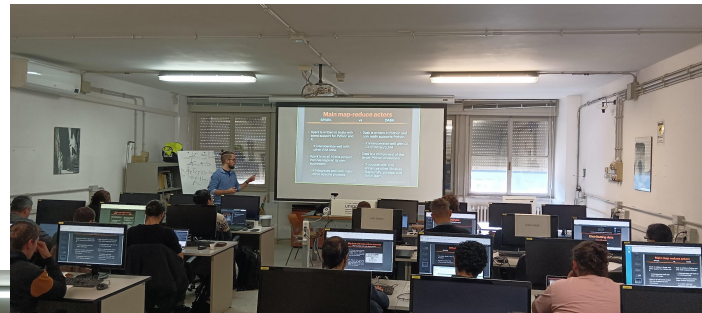

This is now a new start and I'm personally quite happy with this fourth edition

- You made the school this week very stimulating
- A lot of questions!!
- Many discussions and interactions, during hands-on, social events as well as coffee breaks
