

Workshop on status and perspectives of physics at high intensity

Thursday, 10 November 2022

Spectroscopy, form factors, quantum interferometry - Bruno Touschek Auditorium (09:00 - 12:30)

-Conveners: Jacopo Pinzino; Giovanni Cavallero; Umberto Tamponi; Umberto Tamponi

time	[id] title	presenter
09:00	[12] Spectroscopy theory	POLOSA, Antonio Davide
09:25	[13] Status and prospects for hadron spectroscopy at Belle II	SCAVINO, Bianca
09:50	[14] Heavy-hadron spectroscopy at LHCb	CAPRIOTTI, Lorenzo CAPRIOTTI, Lorenzo
10:15	Coffee break	
10:40	[17] Recent results on quantum interferometry and hadron physics at KLOE-2	DE SANTIS, Antonio
11:05	[15] Hadronic spectroscopy at BESIII	MEZZADRI, Giulio
11:30	[16] Status of NA62 precision measurements on Chiral Perturbation Theory and form factor parameters	D'ERRICO, Mariaelena
11:55	[18] Discussion
