

The University of Manchester

- Largest physics department (1060 UG, 350 PhD) & university (41,000 students) in the the UK.
- Long distinguished history: Joule, Rutherford, Moseley, Bragg, Blackett, Lovell (Mott, Bethe, Chadwick, Peierls, Wilson, Thomson, Bohr, Cockcroft): 13 Nobel Prizes, 2 current
- Physics Department has over 100 faculty

Particle Physics Group

- 60 PhD students, 27 faculty (theory + experiment), 35 RAs/technical staff
- ATLAS, LHCb, **DUNE**, BES-III, **Microboone**, **SBND**, Minos+, SuperNEMO, NEXT, Darkside, **Mu2e**, Muon g-2, MuEDM and previously D0, OPAL, H1, BaBar, JADE, Omega-Photon,

Mu2e → Claudia Alvarez Garcia

Provided spokespeople for both MicroBoone and DUNE.
