The future is bright

- ▶ Unique opportunity to measure MDM/EDM of strange and charm baryons at LHC. Proposal for the tau lepton
- ▶ Other physics opportunities have been discussed
- ▶ Good progress on many fronts: machine, engineering, simulations, analyses, and detector
- ▶ An interesting collaboration is forming based on shared scientific interests
- ▶ MoU for machine test at IR3 ready
- ▶ Lol for the MDM/EDM experiment for charm baryons in preparation

Enjoy the present

Enjoy the present

Enjoy the present

Farewell

- ▶ It has been a very interesting workshop, although very intense
- ▶ Lots of interesting talks and discussions, also after the sessions
- ▶ To be repeated
- ▶ Wish you a safe trip back home!

Thanks everybody!
