

Roma International Conference on Astroparticle Physics

mercoledì 25 maggio 2011

Parallel session: High Energy Neutrinos (16:45 - 18:30)

time	[id] title	presenter
16:45	[87] Particle physics in ice with IceCube DeepCore	DEYOUNG, Tyce
17:05	[29] Search for neutrinos from transient sources with the ANTARES telescope and optical follow-up observations	Sig.na AL SAMARAI, Imen
17:25	[48] Performance Studies for the KM3NeT Neutrino Telescope	Dr. KOPPER, Claudio
17:45	[65] The South Pole Acoustic Test Setup SPATS.	Dr. LAIHEM, Karim
18:05	[58] Towards the acoustic U. H. E. neutrino detection in the Mediterranean Sea	RICCOBENE, Giorgio
